FUGRO PELAGOS, INC. AWARDED 5-YEAR NOAA IDIQ CONTRACT

Fugro Pelagos, Inc. has successfully negotiated a contract with the National Oceanic and Atmospheric Administration (NOAA-NOS), a bureau of the U.S. Department of Commerce, to provide Hydrographic Surveying and Related Support Services. The Indefinite Delivery Indefinite Quantity contract is for 5-years, and not-to-exceed \$50,000,000.

An initial Task Order has begun, valued at just under \$6,000,000 for operations in remote portions of Alaska waters, using multiple vessels, and RESON 8111 and 8101 multibeam echo sounder systems. Future operations can include multibeam echo sounder, side scan sonar and hydrographic LIDAR anywhere in US waters, including Alaska, Hawaii, the Territories and Great Lakes areas. The contract is designed to help alleviate the backlog of charting requirements for updating navigation charts in US waters. It is also expected to complement NOAA's concept that hydrography supports integrated ocean mapping. The initial award was a QBS (Qualifications Based Selection) process for these professional services.

About Fugro:

Fugro Pelagos, Inc. is a member of the international Fugro group of companies. Fugro collects, processes and interprets data related to the earth's surface and soil composition and provides advice based on the results. As an extension to these activities, Fugro provides services such as precise positioning, construction materials testing, reservoir engineering and data management. Fugro's operations have been organized into three divisions: Geotechnical, Survey and Geoscience. Fugro has over 275 offices, more than 7,000 staff and a permanent presence in over 50 countries.
